

UNBREAKABLE Landscape Edging

Made from Ultra Molecular HDPE 

- Made locally in BC from recycled Ultra Molecular HDPE
- Precision Edge is the strongest landscape edging available
- Stronger than aluminum landscape edging
- Mimics black aluminum edging with its solid colour
- Will not break or fracture under any circumstances due to its solid & consistent core construction.
- Ideal for straight lines, curves and corners
- No chemical additives. 100% recycled material only
- Great finishing edge for all landscape applications
- Non-stick surface is ideal for easy off concrete forms
- Will not rot or break down over time like wood products
- Edging available in brown or black
